So I got myself undone  
What do you think now  
And I lost myself a job  
What do you say now

How was I to know  
How was I to get back  
How was I to know

So I hooked myself on drugs  
What do you think now  
And I stole myself a car  
What do you say now

How was I to know  
How was I to get back  
How was I to know

It's a sign of the times  
It's the way we turned out  
I can't get back now  
There's no turning around

Well I lied to you again  
What do you think now?  
And I smoked your last cigarette  
What do you say now?

How was I to know?  
How was I to get back?  
How was I to know?
