It's a fucked up situation  
That I think we've found ourselves in again  
It's a no-win confrontation  
We can justify the loss in the end

I'm leaving  
Well I've wasted way too long  
Yeah, that's out of the question

It's a sad soul consultation  
Is it worth the price of fault when you win  
We can stop this education  
By giving up the blood in the end

I'm leaving  
Well I've wasted way too long  
Yeah, that's out of the question

Yeah I've wasted way too long

Well I've wasted way too long  
Yeah, now that's out of the question

Yeah I've wasted way too long
