Gotta stop holding your breath
He's not coming back this time
Gotta stop holding your breath
'Cause you're turning blue this time

Well I know that you're confused
You said
And I know that you can't lose
Today is that day
Today

Gotta stop holding your breath
He's not gonna change this time
Gotta stop holding your breath
You're turning blue this time

Well I know that you're confused
You said
And I know that you'll pull through
Today is that day
Today is that day
Today

Gotta stop holding your breath
He's not coming back this time
Gotta stop holding your breath
You're turning blue this time

Well I know that you're confused
You said
And I know that you can't lose
Today is that day
Today

I'm yours
Today I'm yours
