Sometimes I wish that I could
climb inside a cave and die
Seems I can't get anywhere
no matter how hard i try
is there something deep inside me
striving to explode and set me straight
or am i just another hopeless victim
who might never know his fate
I don't know if i
missed the buss to the right place
but i'm wrong again
and that always seems to be the case
when will i figure out
just what i need
to get my head out of the past
I dont know why I dwell
on all the stupid shit i've ever done
instead of living
I'm just shutting out everyone
I rot away inside these pages
talking only to myself
the demon thats inside me rages
praying on my mental health
I don't know if i
missed the buss to the right place
but i'm wrong again
and that always seems to be the case
when will i figure out
just what i need
to get my head out of the past
I just can't get myself out of this rut i fell into
I just can't get myself out of this rut I fell into
I need to stop wasting my time
(I just can't...)
Sending my brain to outer space
(get myself)
Before I start to loose my mind
(out of this rut)
I better find my place
(i fell into)
I need to stop wasting my time

Sending my brain to outer space
Before I start to loose my mind
I better find my place
