You flew Away
I'm sick of all the imports
Now you're scared 'cuz you don't know
I'm wasted away
I'm wasted away
It's not easy when you're alone
You think you know
But you have no idea
You think you know
But you have no idea
I'm so tired, of hating who i am
Not the one you're thinking of
I'm wasted away
I'm wasted away
Its not easy when you're alone

You think you know
But you have no idea
You think you know
But you have no idea
Tell my friends that i don't care
When i get home
Pull yourself up off the ground
Just so you can fall back down
You flew away
I'm sick of all the imports
You think you know
But you have no idea
You think you know
But you have no idea
