DIGIMON!

Look to the past  
As we head for the future  
To reclaim the Digital world

With faith in ourselves  
And trust in each other  
We'll live by the lessons we've learned

As we work towards one solution  
Through a spirit evolution

I am the one!  
HUUH!  
I am the one!

Digimon!  
Forever united as one  
Digimon!  
Together the battles are won  
Digimon!  
Through us let your spirit evolve

If we're all for one world  
There's a world for us all

If we're all for one world  
There's a world for us all
