Here I go back in your face, comin at you with some
sweet shit that you can taste so, check me out drown
your doubt if your feeling what I'm given let me hear
you shout (Hey) that's what I'm talkin about, got the
whole crowd kicked up from inside out, in other words I
just slatuerted the mic and you can blame the holy
water cause it got me high (for real!) I'm a professional
so its best to confess I'm untestable people say that I'm
out of control cause I'm so abstract when it comes to
my flow (my flow) I'm hotter than a space heater give
the world scholer feaver just to make em all believers
(all believers) call me a face you can trust if you ever
need a crazy native ready to bust...

[Chorus]

GET DOWNN.... Lay Lowwww..
