Like That
Yeah, B.C.
Like that
Yeah I'll drop that thing like that
Now pop that thing like that
Now back it up just like that
Like that, like that

Baby come over in ur panties on
I'm into havin sex on the floor
If you don't know by now, girl it's on
Come and shake it up for me... yeah!

I don't see how you go stir it up
Pour me a cup of that purple stuff
Why don't you let me see show you stuff?
Drop it baby to ur knees. Yeah!

CHORUS:
Drop that thing like that
Now pop that thing like that
Now back it up just like that,
Like that, like that girl

Work that thing like that
Now jerk that like that
Now hurt that thing like that
Like that, like that... oh...

You made it last
I got next
Gonna hit it till u feel it in your chest.
Catch your breath, maybe so we can do it all again...
yeah!

Touch your toes
Baby so, I can see when I'ma get a private show
Not the toe, baby I know you like to go down low. Oh!
(REPEAT CHORUS)

BRIDGE:

I don't mean (4x)
I don't mean to come that hard
Come to me (2x)
I wanna get that thing right out of the park
Would I break it down?
Let me lay it down
Show you I'm not playin around
You and me, we don't see (what you)
Workin with (2x)

Let's do this thing like we're makin a baby
I'll be back, look back
600 Mercedes
Your man is a silk
Baby girl I'm a pimp
And I equipped with everything that's left for the limp
now.

Drop it down like ur movin something
Now, move ur hips loke ur doin something
Now drop everything on the floor
Pick it up, put in on me, lets go
(Repeat bridge)

Drop that thing right... Drop that thing right...
Like that, Like that
