Squeeze, release, in and out, hold, let go, rise, come down

Let the wet sensuality embrace your reality

Moonstones drip slip bout it bout it see

Continuously we be gettin' freaky
Rose petals cham-pag-nee come and see me

Positions run fluid honey ribbons create a quiver
shiversdelivers

Ooh wee sweet harmony synchronicity the simplicity
Seven day kisses slide in you and me me me [Slide you
and me yeah]

You messin' up my mind in the right way I'm ready to
play and lay with you

Been savin' all my love for a lotta days I'm ready to
spend what I saved on you

[Saved on you]

I wanna do it outside [I wanna go outside]

I wanna do it in the rain [Let's do it in the rain]

I wanna do it outside [I wanna do it outside]

I wanna do it in the rain [Baby let's get wet in the rain]

Don't know if rain drops or lust swellin' in my eyes

Want to stroke you and soak you but not just between
your thighs

Your hips plus the way roll grips gets me swervin'

Job site visit exquisite lunch time excursions

Kitty cats purrin' wet lips get near then...[Boo Yaaw]

Skin parts start disappearin'

Earlobes get chewed up Hennessy poured in two cups

Downtown is looking delicious audio schooled up

Let's heat the mood up say what's on your mind

When bones grind, lips to ??? sippin on wine

Rhythmic tussles but not the struggle
Ever juggle raindrops strawberry snuggles?

Do what you want to

Let's take it outdoors with out your

There's no one without beds without floors

Plays our body softly like piano keys
Together explore, makin' the stormy breeze

I wanna do it outside [I wanna go outside]

I wanna do it in the rain [Do it in the rain]

I wanna do it outside

I wanna do it in the rain

Erotic beads of rolling water tricklin'

And ticklin' swarms of moonlight kisses

Hips and thighs aligned in perfect nines and soft wet
sixes

Wine and candy rain drop hor's devoures

To be dined from deep within your curves

We merge devinely on liquid missions

Climbing grinding finding climax with each position

Naked skin chills hair filled with rain

Caressing erect body tips next to me

It's ecstasy when we play

Easing winds bring mounds of lust whisper three words
we love to say

Dripping black laces, hidden places

Manicured hands around joysticks of passion

Splashing seeds of new beginning swimming on naked
skin

Or trapped within thin lambskin walls

Windchimes and bells, erotic smells

Breath becomes deep, desire swells, desire swells

You messin' up my mind in the right way I wanna play
and lay with you
Been savin' all my love for right one, I wanna spend it
on you

I wanna do it outside [I wanna do it outside]

I wanna do it in the rain [Girl let me do it to you baby]

I wanna do it outside. [Let's go out and get busy in the
rain]
I wanna do it in the rain

Squeeze, release, in and out, hold, let go, rise, come
down

Squeeze, release, in and out, hold, let go, rise, come
down
