You've been running your mouth  
For quite a while now  
You think you got what it takes?  
Well let's find out!

Will you back down?  
Will you stand your ground?  
Take my advice and just  
Run away when you  
Feel the pain surround you  
The fighting's just begun

I'm ready to break  
And I'm ready to face  
And I will  
So my advice to you is  
Just run!  
Just run!

Keep on talking  
We'll find out what you're made of  
I'm bringing something for you to be afraid of  
From your first mistake  
To the last breath that you take  
You'll remember my name so just

Run away when you  
Feel the pain surround you  
The fighting's just begun  
I'm ready to break  
And I'm ready to face  
And I will  
So my advice to you is  
Just run!  
Just run!

A different face  
But the same old story  
You're staring down cause you think you know me  
And I'm a stranger to this type of game  
And every time it always ends the same

What you don't know  
Can't hurt you  
But in this case  
That's just not true  
You keep pushing me  
The way you do  
There's no telling what I will do to you.

Run away when you  
Feel the pain surround you  
The fighting's just begun  
I'm ready to break  
And I'm ready to face  
And I will  
So my advice to you is  
Just run away  
From the pain  
I promise you  
It's more than you can take  
Run away  
Don't you understand  
You should run away  
While you still can.  
Just run!  
Just run!
