

Digital Summer "Love And Tradgedy"

Visit "[Love And Tradgedy](#)" on MotoLyrics.com

Waves crash down all around me
Its consumes all the air I'm breathing
And the sirens sing, They'll be near my sleep
A familiar sound and love and Tradgedy
And the sun won't shine where the shadow grows
And hearts beat still, So tell is this real
Tell me is it real

Or is all a dream, I made up everything
Can you tell me is this real
The pain I own inside, the younger that I feel
Can you tell me is this real

Water rises all around me
It fills my lungs and I can't breath, yea
On this shamless night, i can hear the screams
Violient crime like love and tradgedy
And the sun won't shine where the shadow grows
And hearts beat still, So tell is this real
Tell me is it real
Or is all a dream, I made up everything
Can you tell me is this real
The pain I own inside, the younger that I feel
Can you tell me is this real

Please just wake me from this bad dream
Why
Why
Please just wake me up from everything

Is it all a dream, I made up everything
Can you tell me is this real
The pain I own inside, the younger that I feel
Can you tell me is this real

Why
Why
Why
