Don't be afraid  
Who can do you any harm  
Your debts are paid  
You are resting in my arms

If storms are blowing  
Don't be afraid  
- Cause my perfect love  
Will drive out the fear  
My saving power  
Will shine on you, like the sunrise

Get up, get up  
And make a stand  
Get up, get up  
And take my hand

Come to me  
I will give you rest  
You will be free  
When you're learning to my chest

Don't be afraid  
Who can do you any harm  
Your debts are paid  
You are resting in my arms
