You've got a life somewhere without me  
And I've gone on without you  
It hasn't been easy getting used to being lonely  
And tonight is an all nite blue

And I wonder how you look  
And who's looking at you in your night gown  
I can almost feel your body  
Your warm and lovely body when I lay down

It's an all nite blue  
Remembering you  
It's an all nite blue  
Wondering who's loving you  
All night blue

Well it hurts me to see that you're happy without me  
Cause I still need you  
I just drank up my heart and set it empty on the table  
Cause I ain't got nothing better to do

Still I wonder how you look  
And who looks at you every morning  
I can still feel your breath  
Your kissing me on my chest  
I'm just dreaming

It's an all nite blue  
Remembering you  
It's an all nite blue  
Wondering who's loving you  
All nite blue
