Is there someone in the night who can make me feel
right I've been feelin' for so long
Is there someone out there with the dream that I can
share
Is there someone who will care if I'm gone or if I'm here
Who can help me set my spirit free
I'm lonely and I need somebody to love me
I've got tender lovin' words no woman's ever heard
The women I tried turned out wrong
They were noisy they were fast all the kinds that never
last
In this big and lonesome world there's just got to be a
girl
Who can help me to solve last mistery
I'm lonely and I need somebody to love me
I never had a woman waitin' lonely at my door
It's got me feelin' bad you see and I just can't take
anymore
So I'm askin' anyone who had to bring the morning sun
tryin' hard not to cry
But you're feelin' nothin' new I've been cryin' just like
you
Maybe me and you should try to help each other fly we
can be the lovers hard to be
I'm lonely and I need somebody to love me
I'm lonely and I need somebody to love
