

## Dilated Peoples "Heavy Lighting"

Visit "[Heavy Lighting](#)" on MotoLyrics.com

It's heavy lighting

[Iriscience]

To all you non carpoolin' fuel burners in my town  
We're not headed for a ice age, we're headed for a  
meltdown

I double checked it, the message is authentic  
It's the flash of heavy lighting that makes us  
photogenic

(Check it out) I get hype on Stetsasonic  
Before rockin a show or droppin shit to plastic  
Iriscience, yo you shine so bright  
Tonight the only thing lit is our crew and off white

[Evidence]

Well you's a shaky gun faker, like Enzo the Baker  
I strip studio rappers lo-tech Amish Quaker  
Trip and fall and haul yourself b-boy breaker  
And all you never sprayed and you're whack on the  
fader

I make you shake a double take, step in motion sensors  
Hit the stage spotlights on the towers and the fences  
Now you see how close the audience is  
Heavy lighting wreaking havoc on your senses

Heavy Lighting

We are the lighting, We are the path, Keep shining

Heavy Lighting

We are the lighting, We are the path, Keep shining

[Evidence]

We making money like tat make money like cash  
Grandmaster D to Grandmaster Flash  
As astrotheologists ponder my past  
Oh please give me one more hit or mega-blast  
Beggars ask, but still opt to be choosy  
You see I, U. Z. I. like an uzi  
And do see what's going on from the Towers of Babble  
To the heart of Babylon and on

[Iriscience]

Yo, I've learned many tactics that I practice til decrepit

We Are... You know the record

I'm that gunner in the forefront, you charge, I punt  
Off my ammunition, they'll be back for now  
Expect ambivalence, since  
I never retreat like Joey rockin them beats  
I'm hard to be seen like green on green  
Yo my voice strikes the mic, there's no time to be  
wastin  
My rhymes are snapshots from Brian Cross and Daniel  
Hastings

[Hook] (2X)

Yo I been around, I found a lot of the greats  
Physically are heavy, but mentally lightweights  
Brain percentage ain't used to full potential  
You're gone next week, only identified by dental

[Iriscience]

Dental records I checked and pressed for selectors  
And worldwide hotspots to weapons inspector  
Producer, director, or information expert  
Unidentified objects light up the desert

[Evidence]

Sometimes it's funny when you don't look how you  
rhyme  
Like one kid stepped to me with one of my own lines  
He didn't realize he was facing 'Ev in person  
Until I replied, turn his big moment to curtains

[Iriscience]

Well Rakka's insight in light and dim light  
I spit venom but I never had to bite  
As life works in cycles, the circles are closing  
Greenhouse effect or maybe you'll be frozen

[Hook] (2X)
