"iriscience"

Hey yo live from copenhagen  
Suckas should start prayin  
Just hopin that I don't get to layin 'em down  
Dazzelin' dilated displayin new sound  
Rak I crown the thoughts cus every days a new town ( ? )  
Rakaa and rasheed and the last emperor  
Internationally leavin casualties of war  
Lyrics that injure, hard to endure  
Denmark, I rock the ht public transport  
Ready for war, typhoons and rainstorms  
Gemini, jump on stage and change forms  
From the angels of cali to illadels crack bell  
Rap sale retail, but I deal with detail  
The mind blowin party rockin platform crew  
Thats rakaa iriscience, evidence, babu  
Context had me askin "yo, where the microphone is? "  
I rock it for the fans and the kroners off a bonus

"claimin respect"

"maylay sparks"

The masked avenger, maylay spark up in roskilde  
Blast off, jump from the stage on damn fields  
Broken leg, run two kegs it's the christiania zombie  
Choke any pipes to calm me  
Im hot-strung, out on the run in copenhagen

With the last emp, dilated peoples and outfit  
I spit, lyrics of life and insight  
Smoke weed pipes, savagely strike ya stage mics  
With jason, name the time, the date, and the place son

I travel from the basement to face 'em  
Typhoon backspins, under a fullmoon in norway  
Two technics, crossfade the songs play  
My short stay, fm dial, hit the flavor out in sweden  
Babs do the crowd while I'm breathin  
Trailblaze, hit the ? daze west philly in ya section  
Catch me on the boulevard connection

"claimin respect"

"the last emperor"

Dont stop the motion, black magic posion  
Take a hit from a spliff, braincell explosion  
Engaged in, conversation with the God odin  
He said "let these words be preserved as an omen"  
I know about your quest for fortune and fame  
So I brought you to the land of the norsmen and danes  
I made it, a safe trip, now take it as a blessing  
With dilated peoples on the boulevard connection  
Continue to carry on in the most pure manner  
Ten times as heavy as thors warhammer  
Strike back and fight back and subdo foes  
Who try to throw dirt on the emperors new clothes  
He said "last emp, take this sword as a gift"  
"i hereby dub you the dark lord of the syth"  
For defense or offence, it don't make a diff  
But don't forget to call odin when rollin the next spliff
