Weve gone too far now  
Too far my eyes just cant see  
How we passably make love now  
And despite the circumstances  
I love you dear  
You hurt me and make me cry  
You leave me one million times  
But when you need me, you know I will be down  
And you haunt me when youre not around  
What kind of love is this,  
when we both hide behind our fences  
You want to be with me,  
but you wont take your chances  
What kind of love is this, is it enemy or shelter  
Rejecting or tracing me, when you say,  
things will get better.  
It better  
If Im your star dear,  
then my force should be in your plans  
Because your my universe dear,  
so my heart belong in your hands  
Go on and hurt me and make me cry  
Leave me, one million times  
You know you need me and  
You know youre mine so why dont you just  
Love and let the sun smile
