Bored I was! Tired of getting less of what I gave
Oh, what a mess When something is missing, and you
don't know what it is
Suddenly everything is here, when I tell you this
From that day I felt for sure, that I could die for another
kiss
Because You are The dream I didn't dare to dream The
things I didn't said
The thoughts I never shared The love I never had
The smiles they never read And the eyes that never
met
Now you are, you are, you're mine.
In my mind The stains are gone and someone else,
free from my self
My souls got no control, but that's OK
Suddenly everything is here, when I tell you this
From that day I felt for sure, that I could die for another
kiss
Because You are The dream I didn't dare to dream The
things I didn't said
The thoughts I never shared The love I never had
The smiles they never read And the eyes that never
met
Now you are, you are, you're mine.
My love, the future is a mystery I know. But well be fine.
Because right now stops, all those times
What wasn't then, is here right now and what will come
Never mind because you are, you are the one.
And you are. The dream I dare to dream And the things
I start to say
Well the thoughts I share with you is, for the love I
never had
And the thoughts I share with you is for the love I never
had
And the smile they never read And the eyes that never
met
Now you are mine
