Verse 1

It's 12 o'clock and we just flew in
The hotel just sent up the Hen
Throw them ones on, and meet me in the lounge
Grab my ice and I'm ready to bounce
Soon as I walked out the door
Oh yeah man there she goes
I saw a fire on the fourteenth floor
Her A... said hey and my D... said oh

Hook

She's from the bright lights
I'm from the big city
She's gotta nice ass and got some big oohwees
Oh Lord this girl is so pretty
So let's do it to the congo's
Spend you like a bank roll until you holla let's go

Verse 2

I got downstairs
She just left with her peeps
And I don't want to cause a scene
Ride out 24's in the jeep
CD playa bumpin JZ
Jet ski's big balling in the water
Yet I'm still looking for somebody's daughter
Across the street, on the beach
She came over here just to talk to me
She said

B sec

I hope that your feeling me (oh oh)
Cause your eyes is killing me (oh oh)
Boy you looking good(oh oh)
I heard you from the hood (oh oh)
I know you a ways from home (oh oh)
You don't have to be alone(oh oh)
Baby I'll be around (oh oh)
Room 1420 If you down(oh oh)
