I started dreaming of you, long before I ever met you  
And now you're in my room  
I'm so afraid, so scared of you  
I'm gonna meet you at the door with a rose, and you  
know that  
I've been praying all my life for this special night

I want just the right light  
Before I hold you tight  
Because this is our night  
I just want to cry  
I'm on a natural high  
'Cause I think you love me too  
I think you love me too

Do you have any idea, how many years  
I've been looking for you?  
And here you are in my room, I'm losing control  
I won't rush you  
I'm gonna meet you at the door with a rose  
God knows that I've been waiting  
All my life for this special night

I want just the right light  
Before I hold you tight  
Because this is our night  
I just want to cry  
I'm on a natural high  
'Cause I think you love me too

I want just the right light  
Before I hold you tight  
Because this is our night  
I just want to cry  
I'm on a natural high  
'Cause I think you love me too  
Yes I think you love me too

I'm gonna meet you at the door with a rose, and you  
know that

I've been praying all my life for this special night

I want just the right light  
Before I hold you tight  
Because this is our night  
I just want to cry  
I'm on a natural high  
'Cause I think you you love me too

I want just the right light  
Before I hold you tight  
Because this is our night  
I just want to cry  
I'm on a natural high  
'Cause I think you you love me too  
I think you love me too

I know you love me  
I think you love me  
God knows I'm in love with you
