Motions that make gods cringe running in circles as
fast as we can take what you can 'cause now it's all
over run hot and cold to break the skin and we won't
take no for an answer for just when the door slams the
pill drops oh my sweet unknowing partner the perfect
design the pill drops so start the silent dance slumping
silhouette unforgiving hands harboring regret play it
just once more for old times yeah....you know you're all
I ever wanted yeah....you know you're all I'll ever want
how we laughed when we first saw each other... how
you screamed when I saw your eyes melting... this is
the end of every rainbow and now your face shatters
every waking second
