I will take you in my world  
I wanna see you in my dreams  
How would you feel in my mind  
Does your face look the same inside me.

Oh, my dear man I am calling you  
All your coldness must break through  
Don't ask my why you have to do  
'Cause I'll give you what I have  
I'll give you what I need.

And I will see sorrow in your eyes  
That you will never feel in your life  
And I will bleed 'cause my pain will  
Grow through the time.  
I will seek life in your heart  
For distant love in the skies  
And the caress, touch to your soul  
Where's nothing more than a scream  
That I'm losing you in my dream.

And the sky kissed us gently  
With the snow from up above  
Our lives are true  
Our time never ending.  
In that hour we'll be released  
In our hearts we'll be complete  
Faraway from the world  
We will drift in to our Lord.  
I will seek life in your heart  
For distance love in the skies  
And the caress, touch to your soul  
And the caress, touch to your soul

No more words, no more acts  
This is how the end will come  
Like a Saint in velvet rags  
Distant fears must be ours.
