Used to be a flame,
You used to be a fire,
Whatever but the shame,
A love is an another world
And you're a perfect girl
But I don't wanna listen up
Think about all the pain
I keep forgetting.
Keep forgetting how it hurt so bad,
Can't remember how you make me sad
I don't wanna feel like that,
Don't want you do to me
Keep forgetting how it hurt so bad
Can't remember how you make me sad
Try make it easy,
So I just forget you.
Throwing away the memories
Don't care about the history

Won't know you the next time i see ya
I think i'm get amnesia
Throwing away the memories
Don't care about the history
Won't know you the next time i see ya
I think I'm get amnesia.
I don't wanna think about you...
Take another look, another look, take another look
Try understand me
Open up the book
Listen no fairy tales
What you gonna say then?
I'm reaping the pages.
Baby it's amazing
Ooh, but I keep forgetting.
