The sun is shining so brightly
The sea is waiting so sweet
And now I'm feeling so lucky
Cause I got you tonight here with me
You know I'm crazy about you
Like never been in my life
My dancing lady you so good
Let me stay by your side for a while

I'll got you, I'll got you see
It's not I've seen
I'll got you, I'll got you see
Girl I'll got you under my skin
I'll got you, I'll got you see
It's not I've seen
I'll got you, I'll got you see
Girl I'll got you under my skin

I am so proud of been your's, babe,
My heart is right in your hand
And you can see how I hope
That it is true and it will never end
You're so divine and delicious
The one who's driving me while
I don't know how I should treat you
Like a queen or a wonderful child

I'll got you, I'll got you see
It's not I've seen
I'll got you, I'll got you see
Girl I'll got you under my skin
I'll got you, I'll got you see
It's not I've seen
I'll got you, I'll got you see
Girl I'll got you under my skin

You know I'm crazy about you
Like never been in my life
My dancing lady you so good
Let me stay by your side for a while

I'll got you, I'll got you see
It's not I've seen
I'll got you, I'll got you see
Girl I'll got you under my skin
I'll got you, I'll got you see
It's not I've seen
I'll got you, I'll got you see
Girl I'll got you under my skin
