Two years of love
It seems to pass on by
Our love has to
Be the test of time
I've been there for you girl
Through the good and bad
Sunshine and rain...

But the minute I'm thinking
Its progressing
You're saying I'm, not the same
And I'm, guessing, you got a secret
You keep it for me
And I don't wanna, start something
But I don't wanna play the fool in love.
Make it like it was.

Don't you go away girl
I don't wanna say goodbye
Please don't leave cause,
I don't feel I can take the blow
Lets not fall around and I don't wanna

Gotta make it worth somehow
So don't you leave me now
Don't leave me now
Baby don't you
Don't leave me now

Ooh. I blame myself
Is it too late
To put my feelings on the(shelf?
She tells me that
I'm overreacting
Is it all in my head

I need to hold, I wish we could go back to how it was

You And I in love

And I would smile

I don't wanna be

Losing you

Going going crazy

I don't know want to do

I don't know what to do

Just tell me the truth

Don't you go away girl

I don't wanna say goodbye

Please don't leave cause,

I don't feel I can take the blow

Lets not fall around and I don't wanna

Gotta make it worth somehow

So don't you leave me now

I blame myself

myself, I blame myself

I blame myself

myself, I blame myself

I blame myself

myself, I blame myself

I blame myself
