Chorus

Im gonna light you up so keep your fire burning,
Im gonna launch a new attack without a warning,
You say i better stop but i am only human,
You are my reason why god ever made a woman.
Na na na na na, ba ba ba ba-ha
Na na na na na, ba ba ba ba-ha

I love you lady flame,
Ive got some news for you,
I wanna wake you up,
So what you wanna do,
Feel me burning by your side,

Cos im never satisfied,
Don't have to know your name,
Because it's all the same

Chorus

I love you lady flame,
Ive got some news for you,
Im gonna close my eyes,
So what you gonna do,
You can wisper yes or no,
All the same it makes me hot
Because i want to get,
The best of what you got,
