Listen to my story now,  
All in all I'll tell you how  
How am I gonna live without you.

Loneliness will be my guest.  
Nothing but a simple test:  
But I won't get it passed without you -  
Why?

Never believe me,  
Never forgive me,  
But choose to leave me,  
And I'll lose my mind

It's deep in my eyes,  
It's deep in my soul,  
No need to look twice,  
See how I love you.

Wanna find out  
Why I won't let you free?  
Look in the mirror  
See what I see.

(Wanna find out)

When the rain runs out of tears,  
When the ocean disappears,  
When it's cold around the world you hold me tight.

When I climb the hill too high,  
When my wings are weak to fly,  
Hold me and remind me of that night:  
Our night.

Never believe me,  
Never forgive me,

But choose to leave me,  
And I'll lose my mind

It's deep in my eyes,  
It's deep in my soul,  
No need to look twice,  
See how I love you.

Wanna find out  
Why I won't let you free?  
Look in the mirror  
See what I see.  
(Wanna find out)
