Everybody's got a fantasy
Part of being where you are
For every action there's a price to pay
So am I paying for it now?

See what I mean?
But I can see it
Keep on holding onto me
Is this how it's meant to be?

Ref.
Take me with you
Take my heart and let it stay
Take me with you
I got no one else to say

It feels like I'm dying
When you walk away
Take me with you
Take! Me! With! You!

I'm not so mad about that act of love
I'd really love some time to change

But I can't stand to feel that pain of love
I guess I got myself to blame

See I need to breathe?
To make me feel the way
My body doesn't need
The warmth of your release

Ref.

This is to the side I've cried upon
Do you think that you can put this all behind you?
We'll never go back to the way it was
Maybe I'm still holding on
To a part of you that's gone
And now it's time to move on
Then take me with you!!!

Ref x 2.
