Real friends, you were my pal, brother of blood, hell
yeah!!

Journeys together, in a smog filled universe, never
alone, No way!!

Sharing secrets, Staying loyal, nothing to divide our
ways

We grew up, we grew older, those were the days

But now the times have changed .And you know what?

You know what a chazzer is?

That's a pig that don't fly straight!!

Confided and still you lied, no longer on the same side
Was it a deal with the devil? Trust is not a step to reach
a higher level

Not a tool of convenience, not a tool, no way
To hell with our fire, liar, FIRE! Liar!

The times have changed...

You know what !!!!

You know what a chazzer is?

That's a pig that don't fly straight!!

Pig piggy pig pig Not straight

You're that pig that don't fly straight

Hate

Figured you out

Don't chazz me

Your ego hit the roof

Not for me

I am strong and free

Believe me

You were a waste of my time

Chazzer
