Fear breeds envy, fear breeds jealousy, fear breeds
fear

Fear breeds envy, fear breeds jealousy, fear breeds
hate!

Your hate! No way!

Anti, but I got style, what's yours fat ass?

Playing my friend off against me! I don't understand
you

My sincerity's bigger than your envy, it's yours to
swallow this bitter

Pill!

The pill is bitter in relative's mouth

The pill is bitter in your mouth! ha ha!! Gotcha!!

Still it's bitter, still it's bitter still

The pill is bitter in your mouth

TRY TO LIVE IT FESTERS WAY

Behind my back! So low! You think I don't know?

Again you are surrounded, yes I found it yeah

You made a big mistake, I won't take.. Your package
with emotional baggage

Fed my will

I won't rest until you've died...

DIE!!
