Come on! Fuck-ups! Stand up!
No more bullshit!! Wake up!! Save your soul!!

Provoke! Just to fuck up!! Feel stimulation!
Amuse you! Do I have to be your teacher when I feed
you I try to wake you
But
Nothing seems to impress you all...

Sick mind!! What's your kick in life?? With no heart you
are part of the
Masked world
You are victimized!!! Don't you realize? When you
follow, you swallow and

Chew off your tongue...
You got no opinion of your own

I am Numb, So Immune...
Get rid of it!!

Nothing seems to please you, is your middle name
MORE and is that what you
Stand for?
Your skull, so dull, I hate you for still wanting more
Too much is not enough to you

Feed your eyes.. Feed your ears.. Feed your mind..

Get rid of it!!
Release your fears!!
