Ooh, what ya gonna do now?  
What ya gonna do when the rhythm comes kicking you?  
Kinda making me bleed into  
My resent so definite, evident

Breathe like a disease, gotta get you off of me  
Thoughts of you rotting me  
Animosity burrows into me  
Boy, you lost when you made me the enemy

Blood in my eyes  
Blood in my eyes

I don't like to think, I don't like to think about you, no  
What you're gonna do? Who you're gonna do it to ?  
'Cause it's making me feel, yeah, it's making me feel

My will, something I killed off  
Giving off a lick about you to another like me  
Punk, you're gonna get yourself knocked out  
Nightmares running through my mind

Walked a path that warped my brain  
Never left me quite the same  
All the memories of my pain  
Looking down as I remain  
So empty, inside me, so empty

Hey you, look into my face, can't you see my grin?  
Yeah, 'cause I'm just about to kick it  
My innocence feeding your arrogance  
I guess you gave no thought to your madness

Who you trying to fool, now?  
Who you trying to get to live in the insanity you knew  
now?  
Animosity burrows into me  
Waiting for a minute, then I'm making you the enemy

Walked a path that warped my brain  
Never left me quite the same  
All the memories of my pain

Looking down as I remain  
So empty, inside me, so empty

Rage, in my veins, I cannot remain  
Thinking how you let me down  
Oh, end my pain, I cannot remain  
Why don't you just let me drown?

Ooh, what ya gonna do now?  
What ya gonna do when the rhythm comes kicking you?  
Kinda making me bleed into  
Nightmares running through my mind

Breathe like a disease, gotta get you  
Off of me, thoughts of you rotting me  
Animosity grows into me  
Boy, you lost when you made me the enemy

Ooh, like I never knew  
Distrust that brews every single time that I think of you  
Rape my mind to make me blind  
Thought I would forget?

Boy, I'll hit you with a blindside  
No, stopping it, watch me dropping it  
Off of me, another nightmare rocking it  
Animosity burrows into me  
Boy, you lost, now I made you the enemy

Walked a path that warped my brain  
Never left me quite the same  
All the memories of my pain  
Looking down as I remain  
So empty, inside me, so empty
