The cruel origins of freedom
Have longed the notion to die
This door will allow evolution of sins
Bringing new way
The rebirth is the year of completion
As we slowly awaken from slumber
As we slowly awaken from slumber
The men break this and the spirit ends
Can't arise
While the gift is hard to get acclaimed
Can't arise
No rules are restraints on our new planet
Can't arise
While the ancient future is reclaimed
Can't arise
No rules are restraints on our new planet
Can't arise
While the ancient future is reclaimed
Can't arise
Its all there for the eyes that can see
The blind ones will always suffer in secrecy
Praise the omen oh what lives have (perished/purged)

And have been true to us
The cruel origins of freedom
Have longed the notion to die
This door will allow evolution of sins
Bringing new way
The rebirth is the year of completion
As we slowly awaken from slumber
Till we see the light that shines in darkness
The light that shines forever more
Forever more
Be the broke or the breaker
Be the giver or the undertaker
Unlock and open the door
Be the healer or the breaker
The keys are in your hands
Realize you are the source of all creation
Of your own master plan
Be the broke or the breaker
Be the giver or the undertaker

Unlock and open the door
Be the healer or the breaker
The keys are in your hands
Realize you are the source of all creation
Of your own master plan
