With hearts of midnight, brightened by his infernal
light,
we stand as a monolith of wrath, united under the
goath of a thousand young.
Two horns thrust upwards in defiance, three inverted
as the trinity denied.
A phalanx of mourners in black, falling towards nightly
terror.

Unleash the temted beast, raised your horns in
pridefull blasphemy!
I'll be your guide into the glourious darrkness, and
enchant you like a taste of sin!
Unleash the temted beast, chant theron in words of
blazing scorn!
Grant me my dark desires, strengthened through the
power of satan!

Take plesure in the torment of the wretched,
and rejoice in the delight of the flesh!
Behold the face of satan,
and walk the fields of erotic fire!

Hunt the heavens ...!

Godless temted beckon,
through gleaming scapes of horrid nightmare.
Gathered between symbols and signs,
a glow of new light is born out of the night.

Give into your lust and carnal desires - in twisted
blood-dripping ecstasy!
In the name of satan - I lead you into temptation!
