With hearts of midnight, brightened by his infernal
light
We stand as a monolith of wrath, united under the
goath of a thousand young
Two horns thrust upwards in defiance, three inverted
as the trinity denied
A phalanx of mourners in black, falling towards nightly
terror

Unleash the temted beast, raised your horns in
pridefull blasphemy
I'll be your guide into the glourious darrkness, and
enchant you like a taste of sin
Unleash the temted beast, chant theron in words of
blazing scorn
Grant me my dark desires, strengthened through the
power of satan

Take plesure in the torment of the wretched
And rejoyce in the delight of the flesh
Behold the face of satan
And walk the fields of erotic fire

Hunt the heavens ...

Godless temted beckon
Through gleaming scapes of horrid nightmare
Gathered between symbols and signs
A glow of new light is born out of the night

Give into your lust and carnal desires - in twisted
blood-dripping ecstasy
In the name of satan - i lead you into temptation
