I.

I've been wasting my life just waiting for a sign
Waiting to find a love that i can call mine
Then without warning our hearts were aligned
And i found my self deep in you arms.

II.

Don't ask me why but i'm sure this is gonna last
Not just a flame that burned then fade out fast
But so far so good, it's been quite alright
Don't step on the break. Don't stem the tide

chorus:

You gave wings to my heart
Felt it from the start
Heaven sent
That's what you are
You brought joy to my life
Never ending delight
And I swear
Heaven sent that's what you are

III.

Nothing prepared me for what i'm feeling now
Since you swept me off my feet I haven't touched the
ground
Somebody pinched me so I'll know this ain't a dream
Boy oh boy this better be what it seem
(repeat chorus)

bridge:

How do you do what you're doing
The mere thought of you brings on a smile
God knows i've never felt this way
Just being with you takes me skyhigh. So high.

(repeat chorus)

Heaven sent that's what you are
I stopped waiting for a sign.
