"Just Believe"

Visit "[Just Believe](#)" on MotoLyrics.com

Here you go again, ready to give up
Feeling so pressured
Thinking enough is enough
Believe it or not, you're not alone
Everyone's hope is running thin
But it's never as bad as it seems

CHORUS

Just believe
Things can only get better
Just believe
Your spirit can soar higher
Just believe
Tomorrow can shine brighter
All you gotta do is just believe

Every now and then, nothing turns out right
You feel so unloved as you cry

All through the night
Believe it or not, you're not alone
Every one's hope is running thin
But it's never as bad as it seems

[Repeat CHORUS]

BRIDGE

Sad moments were made
To make us appreciate the happy times
We always seem to take for granted
Always taking for granted

[Repeat CHORUS except last line]

No need to feel down
You can turn things around
You can do it if you just believe
Just believe
