[Boy:]

My life,
Was a constant uphill climb
Never got it right
Each one I love
Went through a change of heart
You came,
And my world turn up side down
You sung a different tune
Can't let go
It keeps playing on my mind...

[Chorus:]

Now there's a reason to wake up each day
A reason to shake my blues away
Now I am whole a lucky soul
I wanna thank you for your love
Thank you...
Thank you for your love

[Girl:]

Confused...
My heart was in a dazed...
Learned to live with pain
I love to haste
Then watched it go to waste
You came,
And brought music to my soul
Inspired me to the very core
You touched me where
No one has been before

[Chorus:]

Now there's a reason to wake up each day

I thank the Lord
For sending you my way
Now I am whole
A lucky soul
I wanna thank you for your love
Thank you...
Thank you for your love...

[Both:]

I saw the world
In shades of balck and gray...
Hey yeah hey
Turning blue with every passing day
Just when I thought
That maybe all was lost
My life took on a new turn
And it's all because...
It's because...
Aaaaaaaaahhhhhhhhhh...

[Chorus:]

Now there's a reason to wake up each day
I thank the Lord
For sending you my way
Now I am whole
A lucky soul
I wanna thank you for your love
No looking back
No more pain
No more dark clouds
No more rain
Thank you...
Thank you for your love...
