The way you stumble in the kitchen  
Looking for that first cup of joe  
How you put on your mascara  
Starin' in the mirror on your tippy-toes  
And if you wonder why I love you baby  
I can boil it down to just one thing

Chorus

Yeah everything  
Every little thing about you baby turns me on  
(If it ain't one thing it's another)  
I can't explain  
How everything about you turns me on  
(If it ain't one thing it's another)  
Oh it turns me on, on, on  
On, on, on  
On, on, on  
On, on, on

The sexy way you say "Hey baby"  
When you see my number on your phone  
The way you bit your lip when Mama said  
"You cooked the chicken way too long"  
Girl be careful what you do and say

Repeat Chorus

The way you walk, the way you smile  
The way you kiss, it drives me wild  
The way you laugh, the way you sing  
Girl you know it's everything  
The way you talk, the way you drive  
The way you make me feel alive  
The way you whisper "I love you"  
Everything you do just turns me on, on, on  
On, on, on  
On, on, on  
On, on, on
