So there's somewhere you gotta be  
Well, I sure hate to see you leave  
I'll break my grip but babe you need to know  
Next time I might not let you go

I know what you said and I wanted that too  
But takin' it slow is gettin' harder to do  
It's feelin' more and more like forever  
Holdin' you close  
And next time I might not let you go

Good thing I don't get paid to think  
'Cause I sure thought I had the strength  
To fight love off but my resistance is runnin' low  
And next time I might not let you go

Yeah, I know what you said and I wanted that too  
But takin' it slow is gettin' harder to do  
It's feelin' more and more like forever  
Holdin' you close  
And next time I might not let you go

Yeah, next time I just might  
Hold on for dear life  
Yeah, next time I might not let you go  
Next time I might not let you go

And so there's somewhere you gotta be  
Well, I sure hate to see you leave
