On and on and on...

I sat a little while
Your number came to mind
I've got to tell you that I'm feeling lonely
I was hoping you would come
Before the night is done
Got to get you wrapped up in my love
Before I'm lonely

Wanna lay you down
Make tonight the night
Been thinking about it 52-1 365
Oh let me die, boy, in your arms
You just can't do no wrong
And I've been waiting too long

On and on and on Â– on and on and on
Keep bringing it on Â– on and on and on
Yes, we're going on Â– on and on and on
Keep bringing it on Â– on and on and on

Anticipating
No hesitating
You've got me burning like a house on fire

And I want you to do
Everything you want to do
You just offer what you got to quench my desire

Even though I love your kiss
I really can't resist
The night is over but you got my heart yearning
When I taste your lips
I feel your fingertips
I know that it's time for a little something something

On and on and on Â– on and on and on
Keep bringing it on Â– on and on and on
Yes, we're going on Â– on and on and on
Keep bringing it on Â– on and on and on

On and on and on Â– on and on and on
Keep bringing it on Â– on and on and on
Yes, we're going on Â– on and on and on
Keep bringing it on Â– on and on and on
