Visit "[Just Because](#)" on MotoLyrics.com

you're asking me
why i love you so
well i just feel it
i just know
how can i express to you what can i say
why my heart beats for you this way

REFRAIN:

i'm not so good in saying what i feel
all i know is this
is all for real
it seems that it would take me all the night
to find the words so right

CHORUS:

but now what it's my mind is just because
oh what else can i say but just because
can't find no other way
you're asking me why i love you
when i find the words
honey, i'll tell you
but for now i hope just because will do

(REPEAT REFRAIN AND CHORUS)

no matter how hard i try
can't seem to explain why
all i know is that i love you
so please believe me when i tell you...

(REPEAT CHORUS)

But for now i hope just because will do
