As far as i remember  
You were but a dream  
A thought that couldn't happen  
Coz love had given up on me  
It seemed I'll never find someone who'd love me  
But then you came along and rescued me

CHORUS:

Now you're here, right this moment  
The moment i've been waiting  
for all my life  
I can't believe, this is happening  
Now you and I are joined as one  
Man and wife  
Never thought this day would come  
When I'd finally find someone  
And it all began  
The moment I found you

As you were walking down the aisle  
My tears I cannot hide  
And the beauty of the moment  
Has me standing here with pride

You and I were meant to be together  
Love is here, the waiting is over

(REPEAT CHORUS)
