

Dingdong Avanzado **"With Closed Eyes"**

Visit "[With Closed Eyes](#)" on MotoLyrics.com

With closed eyes I feel you near me
With closed eyes I can see your face
With closed eyes I feel your warm embrace

I don't need no picture with me
To remind me of how we used to be
All I need is a sweet memory

Though you're gone and I'm alone
You're never really far whenever I close my eyes
'Coz baby...

With closed eyes you're really there beside me
With closed eyes you're really there to guide me
With closed eyes you will always be here with me

I don't need no picture with me
To remind me of how we used to be
All I need is a sweet memory

Though you're gone and I'm alone
You're never really far whenever I close my eyes
'Coz baby...

With closed eyes you're really there beside me
With closed eyes you're really there to guide me
With closed eyes you will always be here with me

With closed eyes you're really there beside me
With closed eyes you're really there to guide me
With closed eyes you will always be here with me

With closed eyes
