I came home early just to see you
Drove all through the night to be with you
I even stopped along the way
Just to buy a big bouquet
For all the things, I didn't do

A note is on the kitchen table
I can't imagine what it's there for
I can hear you down the hall
But, you won't answer when I call
Why's your suitcase by the door?

I won't let you walk away
Like there's nothing left to say
If you would look me in the eye
I know you'd never say goodbye

You couldn't leave me face to face
I won't give up without a fight
Ain't nothing wrong here we can't right
I won't let you walk away

Say, it's not too late to hold you
And take back all I never told you
Can't you feel what's in my heart
Your leaving's tearing me apart
There's just no living without you

You couldn't leave me face to face
I won't give up without a fight
Ain't nothing wrong here we can't right
I won't let you walk away
