Nowhere trying to get somewhere  
Anywhere  
But here claustrophobia we're boring  
Audience snoring where are we going  
We're going down been through  
Some stupid places been through  
Intimidations been through hell  
But we don't care  
Now I don't know what I'm singing  
They don't know what they're playing  
All I know is that we suck

As one time flies by  
And still we try to please our aging fans  
Seems like deja vu all over again  
Snowed in in north dakota the sun's in california  
This frost bite is gonna need some warmth  
Our songs just getting older this garage  
Is getting colder help us now we just might survive  
Whooooaa
