There's never too much of you  
The sun goes up the sun goes down  
Think of you when you're not around  
So I call you up on the phone  
You tell me that you're there all alone  
Now I know it sounds funny but I gotta know  
If I come right over can I let my feeling show baby  
'Cause you've been so good so good to me  
You're the kind of lover I really do need  
You're all I need

There's never too much of you  
Just keep all this good love coming  
Just me giving you love  
There's never too much of you  
Every day and every night  
You're on my mind

I see you in the morning light  
I remember all the good things we shared last night  
It's so wrong so right  
I know better than to let you go  
I want to have you next to me  
Don't you know  
Don't you go don't ho

Oh girl  
I want you  
I want to give you all you need  
I need you  
You know what I need

A friendly love  
That's what you are  
I'm wishing on your love on the brightest star  
You and me can be this way all the time  
And I know if you love me so  
I'll never ever let you go baby  
Take my heart it's yours  
Just stay with me

Just keep all this good love coming

There's no way I'm letting you go

You're my sunshine

You're my moonlight

You and me make me feel so right oh girl

You make me feel so good

I love you
