When I was born
They used to treat me like a king on the tron
They put a golden spoon in my hand
And a heavy crown on my head
Singing song for my sweet dream
Oh what a wonder child I should have been

But my blood was running hot
And my mind was running wild
I wasn't listening to them at all
I didn't wanna be somebody's doll
Then things got turning upside down
When I start singing and rocking around

My life is rock'n'roll
It's coming straight out of my soul
I'm just singing my song
My life is rock'n'roll

No hate, no fear, no fight
Just love in my life
I'm like Robin Hood
Taking from rich and giving to poor
That's why they call me a little rebel
And I want every kid to be like you and me

My life is rock'n'roll
It's coming straight out of my soul
I'm just singing my song
My life is rock'n'roll
