Before I came into your land
I only thought about sun and sand
Then on a camel near the pyramid
I met my first Egyptian friend

It was a small nice boy with bright white smile
Who took me around all awhile
I met his friends and family
It was the best thing I have ever seen

Hey what a life they live
I am still wondering how could it be
And the way they smile
It is something you have to live with

My, my, my little Egyptian friend
My, my, my little Egyptian friend
I am coming back
To my Egyptian friend
I am coming back to you

And now as I am here again
Everything seems to be the same
There is something between you and me
That no one else can touch and see

Your life is my life too
and my dream is still the same
I want you to be
Forever my best friend

My, my, my little Egyptian friend
My, my, my little Egyptian friend
My, my, my little Egyptian friend
My, my, my little Egyptian friend

I am coming back
To my Egyptian friend
I am coming back to you
