Look, it's The Byrds  
No, it's some other group  
It's an intercontinental ballistics missile  
No, it's Superman

Who is the man you can't ignore  
It's Superman  
From Budapest to Baltimore  
It's Superman

And around my brain  
A creature science can't explain  
It's not a bird, it's not a plane  
It's Superman

Who is the man you can't forget  
It's Superman  
Who's faster than a super jet  
It's Superman

Nobody knows how this can be  
A man as brave and good as he  
Who is this man of mystery  
It's Superman

Nobody knows how this can be  
A man as brave and good as he  
Who is this man of mystery  
It's Superman
